

# I Never Really

Anna Leone

All my drift  
Drowned in water deep  
And I never follow down  
No, I never did do see

No, I never really wanted you to know  
No, I never really wanted you to know  
No, I never really wanted you to know  
No, I never really wanted you to know

I need you  
And all that you give to me  
But I saw you ridin' in my dreams  
And I never moved my feet

And I never really wanted you to know  
No, I never really wanted you to know  
No, I never really wanted you to know  
No, I never really wanted you to know

It's so hard  
To say it  
I've denied it forever  
I've denied it forever  
I've denied it too long

'Cause I never really wanted you to know  
No, I never really wanted you to know  
No, I never really wanted you to know  
No, I never really wanted you to know

I'm done trying to hold my tongue  
Erase everything I've done  
I'm tired of feeling lost  
I'm tired of feeling down

And I never really wanted you to know  
No, I never really wanted you to know  
No, I never really wanted you to know  
No, I never really wanted you to know
