

Do you see what I mean  
When I say we end this near  
When you look, when I shocked  
How I feel when he's heal  
Will you follow when I go  
Nowhere to hide from what I feel  
Come on get me your love  
It's too late when it's here

I want your love  
Cause nothing will last  
Give me all you've got  
Unless forget the past  
There is nothing to lose  
And nowhere made of of dust  
We all die before flying to different path

There is nothing to lose  
And I'm out of dust  
I want your love  
Cause not now and last  
There is nothing to lose  
And I'm out of dust  
I want your love  
Cause not now and last

Will you hand so when I ask  
But our words but from my heart  
Will you stay while I lay  
Cause when you leave it falls apart  
Do you know what I've done  
No sense in the new start  
It's too late for all of that  
I had a vanish cause of you

I want your love  
Cause nothing will last  
Give me all you've got  
Unless forget the past  
There is nothing to lose  
And Nowhere made of of dust  
We all die before flying to different path

There is nothing to lose  
And I'm out of dust  
I want your love  
Cause not now and last  
There is nothing to lose  
And I'm out of dust  
I want your love  
Cause not now and last
