

# Drink Me

Anna Nalick

Talk about the weather  
Will you miss me ever?  
Lately I'm obsessed  
And I need the rest  
I hope that you're impressed  
She's so pretty, I'm jealous  
And she's lost like Alice  
In a painted past  
In a looking glass  
I see me looking back

I'll take another Drink Me, baby  
Slowly, I'll disappear  
And wear my life like a barbed wire necklace  
So let's play it truth or dare

So you're a fan of Coltrane  
I wanna be Kurt Cobain  
When the truth gets scary  
I'll take my gin and sherry  
And some Drink Me they'll be  
Plath and Joplin with verse writing suiciders  
Kennedy and Monroe come to see my rock show  
I'll be there in the front row

I'll take another Drink Me, baby  
Slowly, I'll disappear  
And wear my life like a barbed wire necklace  
So let's play truth or dare

And I won't be around to play your games  
There will come a day when you won't know my name  
And I'll get smaller with  
Every swallow you'll  
Wait tomorrow and things won't be the same

Talk about the weather  
Will you miss me ever?  
Lately I'm obsessed  
And I need the rest  
I hope that you're impressed  
Cuz I need the rest  
Yeah my head's a mess  
I need the rest  
I need the rest  
I need the rest
