

Call Me

Anna of the North

I'll be lonely at night
In the silence going, going, going, going down
If I turn back time
Would you meet with me half of the way back then?
Some things are hard to forget
I get to feel it inside
Find the words I don't wanna, wanna, wanna let out
If I could rewind
And feel the way it felt back then
You make it hard to forget

Call me if you want to, call me if you want to
Call me if you want to
Call me if you want to, call me if you want to
Call me if you want to, call me if you want to
C-A-L-L, C-A-L-L
Call me if you want to, call me if you want to

Are you lonely at night
When the world is slowing, slowing, slowing, slowing down?
If you turn on the light
Can you see I'm half of the way back then?
But if I never forget

Call me if you want to, call me if you want to
Call me if you want to
Call me if you want to, call me if you want to

What a fool was I to think that I could go on without ya
What a fool was I to think that I could move on without ya
Call me if you want to
What a fool was I to think that I could go on without ya
What a fool was I to think that I could move on without ya
Call me if you want to
C-A-L-L, C-A-L-L

Call me if you want to, call me if you want to
Call me if you want to
C-A-L-L, C-A-L-L
Call me if you want to, call me if you want to
