

Oslo

Anna of the North

Christmas night, OSLO
Just a burning light in the snow
Keep me warm, shelter me from the storm
On this night, OSLO

Greatest time, OSLO
Lighting my heart, red glow
Drinking wine, dance on the loaf of Christ
In the burning streets of OSLO

I never wanna leave you
I never wanna go
You're the one that's in my heart
And it makes me feel at home
I never wanna leave you
I never wanna go
I hope you'll still be here
Next year

We'll go home and become close
As we get close we take off our clothes
I keep you warm, shelter you from the storm
Christmas night, OSLO

I never wanna leave you
I never wanna go
You're the one that's in my heart
And it makes me feel at home
I never wanna leave you
I never wanna go
I hope you'll still be here
Next year
