

## Keep Me In The Dark

Anna Ternheim

Who wants to know  
the thoughts of the one  
they care for the most  
the places they go  
when their eyes are closed

I will be cautious  
that's my one promise  
I will be cautious  
If you have someone else in mind  
don't shut out the light  
if you have some one else in mind  
keep me in the dark  
keep me in the dark

I could love you  
like no one has  
not like the first time  
I get close enough

If you have someone else in mind  
don't shut out the light  
if you have someone else in mind  
don't shut off the light  
keep me in the dark  
keep me in the dark

I will be cautious  
that's my one promise  
I will be cautious

Keep me in the dark  
keep me in the dark
