This Is The One

Anna Ternheim

We met the only day it ever snowed
And all the garden snowmen waved hello
Everything changes when you believe it won't
That town is the loneliest place I know

You held my hand, we walked down the street
Let them all talk, let the whole world see
I'm not going to bow my head to anyone
They can cast us out and call us freaks

This is the one I don't want to lose
This is the one, if I could choose
This is the one I'm going to fight to keep
This is the one that's going to make me bleed
This is the one that's going to make me bleed

We threw ourselves off the high ledge
And left everything we knew behind
Out of the black, straight into the sun

You said follow me, I won't let you down

Lookin' back, those were the bloodshed years
Every laughter left a trail of tears
I found myself with you as life began
Pulling my head out of the sand
This is the one I don't want to lose
This is the one, if I could choose
This is the one I'm going to fight to keep
This is the one that's going to make me bleed

This is the one I don't want to lose
This is the one, if I could choose
This is the one I'm going to fight to keep
This is the one that's going to make me bleed
This is the one that's going to make me bleed
