

(Petals fall...)

Petals fall  
Easy when I'm with you now  
Such a chaotic start  
But I'm hopeful for the future now  
And I thank the universe for this gift  
You and me  
You've got me

(Petals falls...)

Trouble calls easy when I'm with you now  
There's danger in your smile  
There's pleasure in right now  
Now do we make this better  
Will we ever?  
Don't wanna leave, baby, never, no  
I need you in my arms  
Don't make me wish it  
Can't you see that you've got me?

Petals fall  
Easy when I'm with you now (when I'm with you now)  
Such a chaotic start  
But I'm hopeful for the future now (hopeful for the future now)  
And I thank the universe for this gift (and I thank the univers  
e for this gift)  
You and me  
You've got me

(Petals fall...)
