

Juice

Anna Wise

Fly fast down furrowing brow
Break bread with shamans
Show way to others but give them space

Does the fruit give you its juice
Squeeze it real tight
Somebody said "I like what I like"

Doesn't seem impossible to change
You can't take back the change
If you are afraid of change
Then all there will be is change

Free as you wanna be
Anything goes its your reality
And in between

Here let me wash your brain
Lock it up in a bougie museum and pay for a peek

Doesn't seem impossible to change
You can't take back the change
If you are afraid of change
Then all there will be is change
