

# **Nova**

**Anna Wise**

Thunder, thunder and rainfall  
I bet that patch of earth now  
Aint so dry

Dripping (dripping), dripping in motion  
Now see the colors louder  
Than before

Before the water came, separate  
Nature from the humans  
And she gets a break, while we stay  
In with our computers  
And we're missing the vividness  
Of the lush right after the rainfall

Ooooooh

Nova, nova is coming  
I bet she's giving birth now  
Anytime

Flowing, flowing right through you  
I don't know what to do now  
But enjoy

Before the water came, separate  
Nature from the humans  
And she gets a break, while we stay  
In with our computers  
And we're missing the vividness  
Of the lush right after the rainfall

Ooooooh
