

Subtle Body

Anna Wise

I keep it going no limit
I call it back it's mine
Sending you back to you
And all you thought you knew about me

I keep it going infinite
I can out run in the sun
Do it for Super Nova and me
Well, yeah, anyway

She will take you within her heart
You know Earth will take you
Within her heart and within her soil
All that you want

So it seems all hope is lost
You know it will take you
Returning to subtle body dawn
Fear is all gone
So it seems all hope is lost
You know it will take you
Returning to subtle body dawn
Fear is all gone

The seed of my heart is breaking
Open up
(Open up, open up, open up, open up, open up, open up)
The seed of my heart is breaking
Open up
