

All Night Party

Anne Clark

At the all-night party
Standing in the corner
I am watching you
Drink in my hand
I wish it were you instead

At the all-night party
You are dancing
I am watching you
My hands are empty
I dance to your direction
I wish I'd never come here
To the all-night party
I wish that I were miles away

In my hand, I hold empty desires
In my hand an emptying glass
Standing in the corner
At the all night party
