

Dream Made Real

Anne Clark

Life soars
Shatters the quiet
Risen colour swells the empty air

It's all magnified
Violent
Intensified
Vibrant
And it roars:
I'm alive!
And so sure
With heart breaking
So sure
You will never never be there

Never never share
The fire
From the spark
From the dark
You lighted the path
That parted the past
The past that started the future to last
Now blasted apart!

You will never never be there
Never never share
I will never never be there
Never never share
The fire
From the spark
From the dark
You lighted the path
That parted the past
The past that started the future to last
Now blasted apart!

The way is sighted
Leaving behind me
Eternal night
Ignited.
