

The Idea Of You

Anne-Marie

I don't even care about the rain no more
That's the side effect you've had on me
I used to believe in walking away
But there's no way to put out this flame

So I'll wait a lifetime or two
With the idea of you
To get me through
And even though time can be cruel
It's the idea of you (The idea of you)
I'll hold onto

Never even dared to write a song before
Not until you put your faith in me
I used to believe that love's gonna fade
But there's no way to put out this flame

So I'll wait a lifetime or two
With the idea of you (The idea of you)
To get me through
And even though time can be cruel
It's the idea of you (The idea of you)
I'll hold onto

Oh the idea of you

So I'll wait a lifetime or two
With the idea of you (The idea of you)
To get me through
And even though time can be cruel
It's the idea of you (The idea of you)
I'll hold onto

So I'll wait a lifetime or two
With the idea of you
