

# Dancin' All Night Long

Anne Murray

Well you wait for the beat  
And everybody starts to shake it  
Party's flyin' trying to make it  
With the rhythm and the rhyme  
And how you'd love to stay  
'Til the last goodbyes are spoken  
Records playin' 'til they're broken  
And you're thinkin' double time

Baby, don't get me wrong  
I don't mind a little rockin' on  
I don't mind a little sing-song  
And I've been known to drink a drop  
But if you stay 'til dawn  
And you really start to get down  
I'm afraid you'll do a turn-around  
And you'll never want to stop

So I don't care if I never see a whole lot of shakin' goin' on  
It isn't fair if you never turn your lovin' on  
So I don't want to see you dancin' all night long  
I don't want to see you dancin' all night long  
I don't need a crowd and the music loud to enjoy the song  
And I don't want to see you dancin' all night long  
All night long

Isn't it hard, keeping up a lot of energy  
Are you taken in by fantasy  
Or is it just the rock 'n roll?  
And your words of love  
Wouldn't they be sweeter whispered low  
Listening to your own ebb and flow  
It's a soothin' to the soul

I don't care if I never see a whole lot of shakin' goin' on  
It isn't fair if you never turn your lovin' on  
So I don't want to see you dancin' all night long  
I don't want to see you dancin' all night long  
I don't need a crowd and the music loud to enjoy the song, oh no  
I don't want to see you dancin' all night long  
All night long

I don't want to see you dancin' all night long  
I don't want to see you dancin' all night long  
I don't need a crowd and the music loud to enjoy the song  
I don't want to see you dancin' all night long  
All night long

I don't want to see you dancin' all night long  
I don't want to see you dancin' all night long  
I don't need a crowd and the music loud to enjoy the song  
I don't want to see you dancin' all night long
