

## Easy Does It

Anne Murray

You know I really like you, maybe more than that  
It's gonna take some time for us to find out where I'm at  
I have learned to be alone and I want to be with you  
So let's just take it slow, keep on doing what we do

Cuz easy does it, we can't hurry, love (We can't hurry, love)  
You know I worry, love, when we try  
Easy does it, be a friend of mine (Be a friend of mine)  
Cuz easy does it every time

We've both been hurt by lovers that we once thought were friends  
And now we're old enough to know just where the river bends  
We can learn a lesson from what the river knows  
If we take the time to see just how the water flows

Easy does it, we can't hurry, love (We can't hurry, love)  
You know I worry, love, when we try  
Easy does it, be a friend of mine (Be a friend of mine)  
Cuz easy does it every time  
Easy does it, we can't hurry, love (We can't hurry, love)  
You know I worry, love, when we try  
Easy does it, be a friend of mine (Be a friend of mine)  
Cuz easy does it every time  
Woah, easy does it every time  
Easy does it every time
