

## Gotcha

Anne Murray

You always walk around you're looking so hot  
You think that everybody wants what you've got  
But I'm the one who's got you right where I want

'Cause I'll make you see that there's nobody but me  
I'll make you want me so much with my personal touch

Until I got you telling me you love me  
Got you telling me you mind  
Got you only thinking of me  
Got you every single night

So now that you know I'll never give in  
Oh, you might as well give up 'cause you can't win  
'Cause you never have another dream not in

'Cause I'll make you see that there's nobody but me  
I'll make you want me so much with my personal touch

Until I got you telling me you love me  
Got you telling me you mind  
Got you only thinking of me  
Got you every single night

Got you telling me you love me  
Got you telling me you mind  
Got you only thinking of me  
Got you every single night  
Got you telling me you love me  
Got you telling me you mind  
Got you only thinking of me  
Got you every single night  
Got you tell me you love me  
Got you telling me you mind  
Got you only thinking of me  
Got you just every single night  
Got you telling me you love me  
Got you telling me you mind  
Got you only thinking of me  
Got you just every single night
