

Harmony

Anne Murray

I never thought we would end up together
My love (my love, my love)
I always thought I'd be lonely forever
My love (my love, my love)
Every song was just a melody
Until you came singing what you sang to me

Harmony, took my love
You and me, just one on one
Harmony, you do the sweetest things
Took me up to heaven now I can hear the angels sing

No doubt about it, we had to be one of a kind
My love (my love, my love)
Now that we found it, just look at the way that we shine
My love (my love, my love)
We turned our love into a symphony
I can hear it every time that you look at me

Harmony, took my love
You and me, just one on one
Harmony, you do the sweetest things
Took me up to heaven now I can hear the angels sing

Sweet and tenderly, whispering in my ear
Voices of love start talking to me when you're near
You're all I can hear

Your harmony, took my love
You and me, just one on one
Harmony, you do the sweetest things
Took me up to heaven now I can hear the angels sing

Harmony, took my love
You and me, just one on one
Harmony, you do the sweetest things
Took me up to heaven now I can hear the angels sing
