

It Happens All the Time

Anne Murray

Today I saw you for the first time
I felt that old familiar pain
We took a walk out in the sunshine
And ran for cover from the rain
We thought it'd last for just a moment
But then it lasted the whole day

It happens all the time
People fall in love
It happens all the time
So why not us?

Lost track of time singing the old songs
The kind The Beatles used to play
We never talked about the weather
Never ran out of things to say
And in your eyes I saw tomorrow
It made me dream of yesterday

It happens all the time
People fall in love
It happens all the time
So why not us?

And in the middle of the miracle
We stopped
To remember
Two lonely people reaching out
For love
Together

And in your eyes I saw tomorrow
It made me dream of yesterday

It happens all the time
People fall in love
It happens all the time
So why not us?

It happens all the time
People fall in love
It happens all the time
So why not us?
