

Just To Feel This Love From You

Anne Murray

I've never held love so closely
Never knew one touch so well
I never dreamed love could really
Bring me to heaven from hell.

I've run miles in the rain
Faced the nights with no end
I finally found my way through
Fate has been cheated, all that I needed
Was just to feel this love from you
Just to feel this love from you.

I've never seen life so clearly
Never fear one step I take
My dreams live on past the morning
Oh, what a difference you make.

I'm sure God only knows
Where I'd be without you
I finally found my way through
Fate has been cheated, all that I needed
Was just to feel this love from you.

It's been hard to believe love was in reach
Forever's fell before each other's needs
God only knows where I'd be without you
I finally found my way through.

Fate has been cheated, all that I needed
Was just to feel this love from you.
Just to feel this love from you...
