

# Maybe

Anne Murray

Maybe you've been mothered, maybe you've been bored  
But baby that's no way to treat a man

Maybe you've had others, and never really scored  
But baby that's the way we all began

Maybe you've been stood up, maybe you've been sad  
But baby that was long before my time

Maybe you'd been good up to the moment you were bad  
It ain't no business baby of mine

'Cause I'll be loving you most every day  
Loving you most every way  
I can  
Yes. I'll be loving you most every day  
Loving you most every way  
I can

Maybe I've had many men, maybe they've had me  
Maybe you can learn to love my other lives

Maybe I was dreaming, and you were dreaming too, that love could  
bring the morning to our eyes

'Cause I'll be loving you most every day  
Loving you most every way  
I can  
Yes. I'll be loving you most every day  
Loving you most every way  
I can

And you know I can
