

## Please Smile

Anne Murray

Please smile although you're feelin' sad and blue  
Please smile and make the world smile back at you  
A smile can say in a million ways you're happy and so pleased  
So smile and offer a smile to me

Please smile and help a friend who's feelin' down  
Please try and make him glad that you're around  
A smile can say in a million ways a friend you're glad to be  
So smile and offer a smile to me

A smile can say in a million ways you're happy and so pleased  
So smile and offer a smile to me please
