

Sentimental Favorite

Anne Murray

Here I am, I got it made
I found someone who loves me
Day by day, he waits for my love patiently
But sentimentally, now and then, I think of you
I dream that we're together
And for a while, the world is like it was before

And forevermore, no matter how hard I try
I know that I could never really say goodbye
Cuz in my heart, it's clear to see that you will always be
Sentimental favorite with me

Even though the time will come
When I love him completely
Even when I'm locking in his arms at night
And though the world is right, even then, deep inside
I wish you were beside me
I'll look at him as you're the one I'm looking for

And forevermore, no matter how hard I try
I know that I could never really say goodbye
Cuz in my heart, it's clear to see that you will always be
Sentimental favorite with me
No matter how hard I try
I know that I could never really say goodbye
Cuz in my heart, it's clear to see that you will always be
Sentimental favorite...
