

Why, Oh, Why

Anne Murray

Why oh why why?
Why why why?
Because because because
Good night good night

Why does a camel drink water?
Why why why?
Because a camel gets thirsty just like you and me
And everybody else does
Good night good night

Why can't a mouse eat a streetcar?
Why why why?
Because a mouse's stomach isn't big enough to hold a streetcar
Good night good night

Why can't a cow have kittens?
Why why why?
Because well um God
Because cows have little calves
And cats have little kittens
And besides dear it's easier that way
Good night good night

Why won't you answer my questions?
Why why why?
Because I don't know the answers
Good night good night
