

You Never Know

Anne Murray

Sometimes it takes a lifetime finally find the right one
Then out of the blue it happens to you
Like lightning from the sky
Sometimes all you hope for is waiting around the corner
And the be the love that you need is right before your eyes

You never know, you never know, where love is going to come from?

A chance to take a twist of faith can lead you to someone
You never know, you never know, you never know

After my heart was broken, I wasn't even hopin'
Lonely in blue, I turned to you, I only needed a friend
For me how love can find you, slipping out right behind you
To my surprise there in your eyes I see myself falling again

You never know, you never know where love is going to come from?

The chance you take a twist of faith can lead you to someone
You never know, you never know, you never know

Never know

You never know, you never know where love is going to come from?

The chance you take a twist of faith can lead you to someone
Never know, never know (Where love is going to come from?)
Never, never know, you never know (Can lead you to someone)
Never know, never know (Where love is going to come from)
Never know, you never know (Can lead you to someone)
