

## We Live On

Anneke van Giersbergen

All my life  
Never really tried to make it all right.  
I realise  
That all this time  
I could have done you right.  
Put up the fight,  
We'll start tonight.

'Cause we live on, we will be strong  
And we don't have to be alone.  
'Cause we live on, we've just begun  
And we don't have to hide anymore.

Tell me why,  
Why deny our fate? Why did I call?  
Was it nothing at all?  
And all this time  
I couldn't believe when you told me  
It's never too late,  
We start today.

'Cause we live on, we will be strong  
And we don't have to be alone.  
'Cause we live on, we've just begun  
And we don't have to hide anymore.

All my life  
I never wandered why I wasn't doing all right  
But I will not hide.

'Cause we live on, we will be strong  
And we don't have to be alone.  
'Cause we live on, we've just begun  
And we don't have to hide anymore.
