

Legs

Annie DiRusso

Legs on the dashboard
Legs in my sheets
Everybody wants you
I think you want me

Bugs screaming at my window
Chain in my teeth
Naked in my new room
Day before you leave

Well, I think you want me
Yeah, I think you want me

I am loosening my grip
I don't give a shit
If we fuck or we date
I'm not making myself sick
I'll give what I get
You can leave, you can stay
Well, I think you want me

Small hot apartment
Window unit
You are a good friend
No matter what we say

We kiss like we're talking
It's all the same
There's something stuck on your tongue
I think it's my name (you say)

Well, I think you want me

I am loosening my grip
I don't give a shit
If we fuck or we date
I'm not making myself sick
I'll give what I get
You can leave, you can stay
Well, I think you want me
Yeah, I think you want me

It eats at me
You fall in love
So easily
With everyone
You touched my face
You wiped it clean
I'm scared of you
You're scared of me...

I hope you want me
Yeah, I hope you want me

I am loosening my grip
I don't give a shit
If we fuck or we date

I 'm done making myself sick
Over some shit
That you said by the lake
Cause I think you want me
Yeah, I think you want me
