

# One Love

Annie Haslam

I saw you on the screen  
You stole my heart  
The moment spellbound me  
You played your part  
I was breathless as you spoke to me  
I rehearse my lines tonight  
For you're my

One love you are my one love  
Gone love over my head goes my heart  
One love you are my one love  
Gone love over my head goes my heart

Falling for you

You take me in your arms  
Your eyes meet mine  
I live each tender kiss  
A million times  
You're no ordinary fantasy  
All my hopes will come alive  
For you're my

Falling for you

You swept in and touched my soul  
Will you ever know  
Unreal though it seems  
I love you so

One love
