

Still Life

Annie Haslam

Still life
Frozen like a tear cried in your dreams
Still -
Your life is better for the tears
Your life is richer for the dreams
Still you live and you may weep and you may love
For there are so many ways

Still life
Water colour days there in your eyes
Still -
Your life is better for the past
Your love is richer for the pain
Still you live and you may weep and you may love
For there are so many ways

Still love
Love is never lost and love you find
Still - (Love will see another way)
Your love is sleeping in your mind (Live and love another day)
And you are waking in your dreams
Still you live and you may weep and you may love
For there are so many ways

Still life
