Bad Times

Annie

Bad times
Never sounded so good
Even though I know we're no good
I forget about the pain

You're damn right
We've been on and off for too long
Even though I know it's so wrong
Still I feel the same

Bad times
Never sounded so good
Even though I know we're no good
I forget about the pain

You're damn right
We've been on and off for too long
Even though I know it's so wrong
Still I feel the same

The loneliness reminds you
That everything fades
You said that life is strange

With all the mess behind you
It's better that way
You said our love could change

To have you in my arms
When all is said and done
To have you in my arms
Make believe we've just begun

Bad times...

Bad times
Never sounded so good
Even though I know we're no good
I forget about the pain

You're damn right
We've been on and off for too long
Even though I know it's so wrong
Still I feel the same

The loneliness reminds you
That everything fades
You said that life is strange

With all the mess behind you
It's better that way
You said our love could change

Bad times...
