

## Death Scent

### Annihilator

Target the weak, plan the attack  
Recruiting them for a violent attack  
Spreading your lies, planting the seed  
Violence and force, to get what you need

Arming the bomb, strapping it on  
Time to move in for the kill  
The freaks come out to play

Death scent, fear is in the air  
Death scent, there's blood everywhere

Vultures on a warpath  
First prize for a bloodbath  
Are you ready to die, ready to kill  
The more, the better, fire at will

Pure scum, radical  
Roaming the earth, like an animal  
Pre-emptive strike, assassinate  
Kill them all before it's too late
