

# No Surrender

## Annihilator

Can't resist - Can't put me down  
Head is spinning - Round and round  
Feeling heaven - Feels so good  
I know you want me - I knew you would

I will take control  
I will bleed your soul  
Now it's time to feed  
I am what you need

There will be no surrender  
No second chance for you  
My name you will remember  
There's nothing you can do

Waking up - To another day  
Head is screaming - I know the way  
Come and get me - It's time taste  
Your addiction - You can't erase

I will take control  
I will bleed your soul  
Now it's time to feed  
I am what you need

There will be no surrender  
No second chance for you  
My name you will remember  
There's nothing you can do

Got to get it I need some more  
I got to get it gimme some more

Got to get it I need some more  
I got to get it loss of control  
Got to get it gimme some more  
I got to get it loss of control

I don't know what i'm going to do anymore  
I can't breath I can't eat I just...  
I just need some more  
Somebody try to help me  
I love you all by the way  
I can't take this anymore...please  
Please god help me!

Devastated - Such a mess  
The devil's bait - You must ingest  
Life is over - You wonder why  
The only answer - Is never try

I will take control  
I will bleed your soul  
Now it's time to feed  
I am what you need

There will be no surrender

No second chance for you  
My name you will remember  
There's nothing you can do
