

Out With The Garbage

Annihilator

Year after year of just playing the part
Serving to pleasure your needs
Giving and living to pacify you
Enabling your rotten deeds
Numb to the feelings, was trapped in your hell
You are the greatest mistake
The yelling, the screaming, just blocking it out
Living a nightmare awake

Out with the old
In with the new
Out with the garbage
I win without you

Taking advantage and making the time
Day after day, work on me
Brainwash
With your bulldozer psychology
Dirty and rude, putting up with the stench
So many things not to miss
The pushing, the shoving, uncaring, unloving
Blind to the force of your fist

Out with the old
In with the new
Out with the garbage
I win without you

Cleansed of the past, just a sick memory
Wiped from the face of the earth
Gone from my mind, not too long I can find
Someone who values my worth

Out with the old
In with the new
Out with the garbage
I win without you
