

## Phantom Asylum

Annihilator

Sentenced to live in the mind but I'm gonna break free  
Psychic violence all around, they're coming for me

Creepy crawlies under the skin, I gotta scratch them out  
This is taking far too long, I'm gonna slice a quicker route

Phantom asylum  
Voices in my head  
Phantom asylum  
Flee or be dead

Dark shadows and white coats, gotta get away from the door  
Screamin' like a demon, try to disappear in the floor

Injection, prevention, I can't let them get me sedate  
They're bursting through, with a blinding light, I can't wait t  
o make my escape

Waking up, white coats surround me, tell me what have you done  
Paralyzed, I'm hypnotized by the light of the sun

Sentenced to live in the mind but I'm gonna break free  
Psychic violence all around and they're coming for me
