

Riot

Annihilator

Caged in like an animal
Locked in here for far too long
Left alone in darkness
Singing that same old song

Make the voices in my head go silent
Shut them up, I gotta make them quiet
Things are gonna get a little violent
Time to go, there's gonna be a riot

Riot
Riot
Riot

A diet of prescription
Starving out the need to feed
Reducing me to nothing
But I will not concede

Make the voices in my head go silent
Shut them up, I gotta make them quiet
Things are gonna get a little violent
Time to go, there's gonna be a riot
Riot

Panic and commotion
I see my chance, it's time to run, run
Corrupt authority, uprising has begun, -gun

Make the voices in my head go silent
Shut them up, I gotta make them quiet
Things are gonna get a little violent
Time to go, there's gonna be a riot
