

# Smear Campaign

## Annihilator

Cut me down - To make me bleed  
Underground - To fill your need

Propaganda -Your personal war  
Your evil slander -Hard to ignore

Preach your hatred fill the world with lies  
Feels so good for you to victimize

Fantasize - You're a shooting star  
Hide away - Like the coward you are

Defamation - A smear campaign  
Restitution - Never blacken my name

Preach your hatred fill the world with lies  
Feels so good for you to victimize  
Try your best to break me can't you see  
You will never suck the life from me

Demonize jeopardize  
Spreading your disease  
So glad you've had your fun  
Making up your stories spewing them with ease  
But now your time is done

Can't look in my eyes  
You won't apologise  
Judge you should not  
But now I hope you rot

Sad, weak and insecure  
Your life is just a fail  
Bitterness and jealousy  
Fabricate now too late  
The coffin and the nail  
It's time for remedy

Can't look in my eyes  
You won't apologise  
Judge you should not  
But now I hope you rot

Words can kill (kill) - Never thought about that  
Confrontation - You run, run like a rat

Man up - It's time to testify  
Stand up - It's time to say goodbye

Preach your hatred fill the world with lies  
Feels so good for you to victimize  
Try your best to break me can't you see  
You will never suck the life from me
