

## Sonic Homicide

### Annihilator

Blasting and ripping it apart  
Intense pain numbing to a pinch  
Tearing the fabric of the soul  
Killing is inch by inch  
Listen to the words of the sick fuck  
C'mon and drop to the knees  
You want compliance, you want control  
Devastation done with ease  
Sonic homicide a torture  
That's burning through the ears  
Sonic homicide beware the killing is for real  
Stone cold, a victim of the freeze  
Ice pic stabbing through the heart  
Airwaves, as deadly as can be  
The damage has been done right from the start  
Slipping into madness, can't deny the blame  
Can't make out reality, can't deny the shame  
Years and years of torment, life just hanging on  
It's time to change the course, time to see the dawn  
Call up the power, and bring on the faith  
Bring on the demons, this match is made  
I'll face the anger and I'll raise my head  
To fight this beast and wake the dead  
Stone cold, a victim of the freeze  
Ice pic stabbing through the heart  
Airwaves, as deadly as can be  
The damage has been done right from the start
