

# WAR

Annika Rose

I spent so many quiet nights just on the couch listenin' to you cry for us  
So obvious  
You think you're alone at home while I grow up and you grow old  
But I promise I'm, I'm not moving on  
See, I'm just tryna find myself  
Too proud to ask you for some help  
But it's safe to say  
That we're both in pain

But I get scared when I'm close to you  
But sad when you leave the room  
And there's so much to say, but we don't 'cause  
We're too good at being at war  
You get mad when I ask too loud  
But sad when I leave the house  
And there's so much to say, but we don't 'cause  
We're too good at being at war

Don't you know I love you?  
And there's so much to say, but we don't 'cause  
We're too good at being at war

You held my hand first day at school  
And broke my heart, I ran to you like I always do  
I run to you  
'Cause you know that you're my best friend  
My little voice inside my head  
You showed my love, unconditional

But I get scared when I'm close to you  
But sad when you leave the room  
And there's so much to say, but we don't 'cause  
We're too good at being at war  
You get mad when I ask too loud  
But sad when I leave the house  
And there's so much to say, but we don't 'cause  
We're too good at being at war

Don't you know I love you?  
And there's so much to say, but we don't 'cause  
We're too good at being at war

When I dance with you in the livin' room  
It all goes away  
I'm a little girl again  
When you hold me close  
Tell you things no one knows  
It all goes away  
I'm a little girl again

But I get scared when I'm close to you  
But sad when you leave the room  
And there's so much to say, but we don't 'cause  
We're too good at being at war  
You get mad when I ask too loud  
But sad when I leave the house  
And there's so much to say, but we don't 'cause

We're too good at being at war

Don't you know I love you?

(Don't you know that I love you?)

(Don't you know that I love you?)

And there's so much to say, but we don't 'cause

We're too good at being at war

Don't you know I love you?

(Don't you know that I love you?)

(Don't you know that I love you?)

And there's so much to say, but we don't 'cause

We're too good at being at war

Don't you know I love you?
