

## Escalators

Annisokay

We cannot wait until the grass has grown  
To realise all our birds have flown  
Old traditions can be broken down  
Playing the only game in town

Tell me what, tell me what makes a valuable person?  
Everyone, everyone is a unique version

We get lost, we get lost in the human crowd  
We get lost, we get lost

We get lost in the crowd  
Where everything's, yeah everything's allowed  
So let us stay, stay  
Let us stay, stay

Our daily routine is bittersweet  
As we feel more and more incomplete  
Old traditions can be broken down  
Losing the only game in town

Tell me why, tell me why, why don't we ignore the ban  
Everyone, everyone has it on their own hands

We get lost, we get lost in the human crowd  
We get lost, we get lost

We get lost in the crowd  
Where everything's, yeah everything's allowed  
So let us stay, stay  
Let us stay, stay

On escalators we're standing on the right  
Against the crowds, we changed the sides  
We blindly understand each other  
And like the story to go further

We get lost in the crowd  
Where everything's, yeah everything's allowed  
So let us stay, stay  
Let us stay, stay  
So let us stay, stay  
Let us stay, stay  
So let us stay, stay  
Let us stay, stay
