

Before The Fall

Another Animal

Holding your breath
What were they all reaching for?
Closer to death
Closer than ever before

Hope is just, a thing that you say
A shining light that has got in our way
The end is just, a step away
So many leaps of faith to take
Before the fall

Losing your home
Reaching the world from inside
Don't you let go
Take it or leave it behind

Hope is just, a thing that you say
A shining light that has got in our way
The end is just, a step away
So many leaps of faith to take
Before the fall

The day I could talk I was told
The moment that I walked I was shot to the ground
The day that I was born I was sold
The moment that I swam I was drowned in a sea

Hope is just, a thing that you say
A shining light that has got in our way
The end is just, a step away
So many leaps of faith to take

And hope is just, a thing that you say
A shining light that has got in our way
The end is just, a step away
So many leaps of faith to take
Before the fall

Before the fall
