

## Breathe

Anouk

Feels like I have a pillow pulled over my head,  
Nearly every night I wake up grasping for air  
As you slowly dive a grave, so you could bury me alive  
And I see you suffocate in dreams and you lie

Breathe in, gotta breathe out  
No fear 'cause they won't come around  
Breathe in, breathe out  
I'm your ride and leave my burdens down

God will you forgive them for they fail to leap their faith  
Take away their pain, their blinds and teach them how to love i  
nstead of hatin'  
Don't they seek that love for free, these gods got a hold on me  
Despite the crap you put me through, I can say I still got love  
for you!

Breathe in, gotta breathe out  
No fear, no they won't come around  
Breathe in, and breathe out  
I'm your ride and I'm your right  
(Breathe in, breathe out  
Breathe in, breathe out)

Won't defeat me,  
In my heart I'll have to be this careless,  
Just let me, let me let me  
Let me breathe baby  
I got to breathe baby  
Let me breathe  
I got to breathe baby  
Let me breathe  
Let me breathe baby  
You gotta get it get it get it, gotta let me breathe
