Don’t Change

Anouk

I long to tell the things I think of you
And how I love your imperfections too
Whatever you say or do, it's all OK
'Cause I know you love me anyway

And if you're moody, that's just fine
Or acting kinda bossy, baby I don't mind
And if you wanna fight a little, that's alright too
I love you still, 'cause baby that's just you

Everything is perfect, everything's OK
I love you more than words could ever say
You make it all worth it, every single day
Your beauty is unmatchable in any way

Just don't, don't change
Don't change

When my deepest memories come to mind
It sometimes makes it hard to see the light
And even on the days when it all falls down
It never feels as good when you're not around

No everything is perfect, everything's OK
I love you more than words could ever say
No you make it all worth it, every single day
Your beauty is unmatchable in any way

Just don't, don't change
No don't change

No everything is perfect, everything's OK
I love you more than words could ever say
You make it all worth it, every single day
Just don't change
