Down And Dirty

Anouk

I know you've been lying boy
Every single word you say
It's the way your lips shake
When you're…
Getting down and dirty baby

Don't you ask me how I know
And why it's time for you to go
'cause you should've known better
Before you were…
Getting down and dirty baby

I know I ain't supposed to cry
But I can't keep it inside

CHEATER

Thinking you could get away
But you don't know who you're dealin' with

All the love we had is gone
You gave it to the other ones
You're neve gonna find a love like mine
The way I'm…
Getting down and dirty baby

Now you're crying on my phone
You should've done that months ago
And now it's time for me to get…
Getting down and dirty baby

I know I ain't supposed to cry
But I can't keep it inside

CHEATER

Thinking you could get away
But you don't know who you're dealin' with

NO!
You don't!

I let you buy just a little time
So I could find a way to say GOODBYE
A little more time before I slam the door in your face
So tired of the heartache and the nights I lie awake

I know I ain't supposed to cry
But I can't keep it inside
CHEATER
Thinking you could get away
But you don't know who you're dealin' with

CHEATER
Thinking you could get away
But you don't know who you're dealin' with

CHEATER
CHEATER

No, you don’t know who you’re dealin’ with dirty boy
