

# My Man

Anouk

Heaven on earth that's  
What I wanted that's what I've got  
Took me from 1 to level 10 he wants to tiden out  
All the energy he brings is power to me  
He holds on and still let's me breath  
Where are the days through the back he's enjoying my  
All I know is I ended up where I was ment to be  
Don't have to die to be in heaven  
Then I realize all I need is close my eyes  
'Cause I know

Back where his mouth is there he swear my money is  
At least I always know where I stand  
Where his mouth is there he swears my money is  
Oh yeah, that's my man, my man  
My man

There he was my love the one that found me  
You went to see and than you put my arms around me  
Believe me I still get a friend  
Everyday of giving my heart away  
Though I know

Back where his mouth is there he swear my money is  
At least I always know where I stand  
Where his mouth is there he swears my money is  
Oh yeah, that's my man, my man

Heaven on earth  
That's what I wanted, that's what I've got  
My man, he found me  
Heaven on earth  
That's what I wanted that's what I've got  
Yes it did  
He inspiress me, he inspiress me anyway  
He makes me dream and dance so free

Yeah where his mouth is there he swear my money is  
At least I always know where I stand  
Where his mouth is there he swears my money is  
Yeah, my man, my man

My, my, my, my man  
My, my, my man  
My, my, my man  
Heaven on earth  
That's what I wanted that's what I've got  
Heaven on earth  
That's what I wanted that's what I've got  
Heey  
I don't have to die to be in heaven that I realize  
Ha ha ha ha  
I don't have to die to be in heaven that I realize  
Ha ha ha ha  
I don't have to die to be heaven that I realize  
Ha ha ha ha  
I don't have to die to be heaven that I realize

Ha ha ha ha
