

# Spring On A Winter's Day

Anouk

The sun was yours and mine  
But you kept it all, over time  
It will fall in place and come our way  
Now listen close to what I say

When love and fear have combined  
It occupies our mind  
Just let it go and let us grow  
Take my hand and understand that  
As long as you are by my side  
We will be alright

Whatever our life will bring out today  
We can always have spring, even on a winter's day  
Undo the past by sun and light  
Please just take these troubles off my mind  
Off my mind  
Off my mind  
Off my mind

'Cause the sun is still yours and mine  
And just restore what is right  
Although your heart may disagree  
And distorts reality  
But still I ain't letting you go  
'Cause we've waited too long

Whatever our life will bring out today  
We can always have spring, even on a winter's day  
Undo the past by sun, by sun and light  
Please just take these troubles off my mind

Make me stay  
I shake and pray  
Baby hold on, give it time  
Make me stay  
Pave the way  
Darling do me, do me right

Whatever our life will bring out today  
We can always have spring, even on a winter's day  
Undo the past by sun and light  
Please just take these troubles off my mind
