

# Take It Slow

Anouk

Don't walk away,  
Honey, I just want to take it slow, slow, slow, slow, slow

This could be the story of our lives  
We can be the one that makes us strive  
All we desire could make us float higher and higher  
Take it easy 'cause we'll never know  
How the western winds will blow?  
Never forget what's in your heart  
That's where it all starts

Please, don't walk away  
Honey, I just want to take it slow, slow, slow, slow  
No need for haste  
We ain't in a hurry, let it grow, grow, grow, grow, grow slow

Oh oh oh ooh ooh oh

Let us take the long walk on the beach  
Listen to the sea, just you & me  
Take a deep breathe, love from the past  
Watch the moon rising  
Come on, baby, let me hold your hand  
I ain't looking for a one-night stand  
This loving fool trust to keep cool, no one disguising

Please, don't walk away  
Honey, I just want to take it slow, slow, slow, slow  
No need for haste  
We ain't in a hurry, let it grow, grow, grow, grow, grow slow

Oh oh oh ooh ooh oh

When we dream us all too fast  
We'd better slowing down  
So we do [?] again  
Hit the ground  
When we dream us all too fast  
We'd better slowing down  
So we do [?] again  
Hit the ground

Don't walk away  
Don't walk away

Take it easy, take it easy  
Take it easy, yeah  
Take it easy, honey, take it easy  
Take it easy, let me hold your hand
