

# Broken Boy

Anson Seabra

I really gotta warn you  
Before it gets too late  
This boy from California  
Loves to run away  
And It ain't nothing personal  
Not something you can change  
Maybe in a few loves  
He'll learn but not today so

Leave before you miss me  
Do what you gotta do  
'Cause if you try to fix me  
You'll be fixing you

No, no, don't make that choice  
Don't fall in love with a broken boy  
You'll never fill that void  
Don't play, don't play with a broken toy  
Hurt people hurt people and  
Trust me I'm no exception  
No, no, don't make that choice  
Don't fall in love  
Fall in love with a broken boy  
You'll just get hurt  
With a broken boy  
You'll just get hurt

I really wanna hold ya  
But I'll push you away  
If you get any closer  
You'll just get closer to the pain so

Leave before you miss me  
Do what you gotta do  
'Cause if you try to fix me  
You'll be fixing you

No, no, don't make that choice  
Don't fall in love with a broken boy  
You'll never fill that void  
Don't play, don't play with a broken toy  
Hurt people hurt people and  
Trust me, I'm no exception  
No, no, don't make that choice  
Don't fall in love  
Fall in love with a broken boy  
You'll just get hurt  
With a broken boy  
You'll just get hurt  
With a broken boy  
You'll just get hurt  
With a broken boy  
You'll just get hurt

Leave before you miss me  
Do what you gotta do  
'Cause if you try to fix me

You'll be fixing you
