

# Evergreen

Anson Seabra

Another party, Christmas Eve  
Another star upon the tree  
Gonna make the most of this December  
Friends are laughing merrily  
And suddenly you're next to me  
And I wish this night could last forever

Seasons come and go  
But I hope this feeling won't

Snow falls, no one around  
Slow walk away from the crowd  
And looking at you I see  
Something I've never seen  
Your friends are wandering home  
But I'll stand here in the cold  
'Cus when it's just you and me  
Darling, we're evergreen

Take a walk around the town  
Look at all the pretty houses  
Oh the lights are shining, streets are golden  
But the only thing I'm thinking 'bout  
Is prettier than all those houses  
And she's looking at me like she knows it

Seasons come and go  
But I hope this feeling won't

Snow falls, no one around  
Slow walk away from the crowd  
And looking at you I see  
Something I've never seen  
Your friends are wandering home  
But I'll stand here in the cold  
'Cus when it's just you and me  
Darling, we're evergreen

Maybe I'm foolish, baby  
Maybe Christmas is making me crazy  
But I see forever tonight

Snow falls, no one around  
Slow walk away from the crowd  
And looking at you I see  
Something I've never seen  
Your friends are wandering home  
But I'll stand here in the cold  
'Cus when it's just you and me  
Darling, we're evergreen

Darling, we're evergreen
