

# Kryptonite

Anson Seabra

Let me tell you a story  
About a girl that I met  
You would think we were in love just from the way that she said  
"Can you stay till the morning?"  
With her hands on my lips  
She told me she was falling then we didn't speak again

And I know when she hears this  
She's gonna call and check in  
Cause she thinks it's about her  
And it is

She's my kryptonite  
But she's with him tonight  
And I can't sleep cause I know  
She's loving somebody else  
My heart's on the ground  
She's driving to his house  
And all I think about is  
She's loving somebody else

She's loving somebody else  
All I think about is  
She's loving somebody else

Let me tell you a story  
About a girl I was with  
She said let's just be friends until she slept in my bed  
And she knew I was falling  
But she let me dive in  
Then when I was under water she was gone with the wind

And I know when she hears this  
She's gonna call and check in  
Cause she thinks it's about her  
And it is

She's my kryptonite  
But she's with him tonight  
And I can't sleep cause I know  
She's loving somebody else  
My heart's on the ground  
She's driving to his house  
And all I think about is  
She's loving somebody else

She's loving somebody else

She's my kryptonite  
But she's with him tonight  
And I can't sleep cause I know  
She's loving somebody else  
My heart's on the ground  
She's driving to his house  
And all I think about is  
She's loving somebody else

She's my kryptonite  
But she's with him tonight  
And I can't sleep cause I know  
She's loving somebody else  
My heart's on the ground  
She's driving to his house  
And all I think about is  
She's loving somebody else
