

# Unforgettable

Anson Seabra

You say that we should move on now  
But it's hard  
Cus I've still got half your closet in the back of my car

All my friends say I'm hopeless  
But I'm not  
It's just that I really hope this  
Doesn't tear us apart

Cus when you leave me  
I don't wanna be alone  
Want you to need me  
Baby baby please don't go

The way we loved was so damn incredible  
That it made me numb when I had to let it go  
Now you say we're done and I hope it was memorable  
But I can't move on cus you're so unforgettable

I still remember the old you  
But it's gone  
And I just hope that he holds you  
The way that you want

I gotta feelin that I should  
Just walk away  
But it gets harder and harder  
Every day

Cus when you leave me  
I don't wanna be alone  
Want you to need me  
Baby baby please don't go

The way we loved was so damn incredible  
That it made me numb when I had to let it go  
Now you say we're done and I hope it was memorable  
But I can't move on cus you're so unforgettable
